Executive MBA Bucharest

The WU Executive Academy is part of the WU Vienna and combines business know-how and the resources of **Europe's largest business university** in its specialized executive education programs for managers. The knowledge provided is of immediate practical relevance and kept up-to-date through WU Vienna's research capabilities.

Over 100 executives and their employers have benefited so far from the demanding 14 months part-time Executive MBA taught by an international top-faculty. The focus is on general and financial management with two residencies to the U.S. and Austria.

Since the successful launch in 2006, the Romanian business journal "Ziarul Financiar" again ranked the program number one for the second time among all MBA programs in Romania.

As one of the leading providers of executive education in CEE, we support high potentials to meet their educational and career goals by **offering a number of merit-based EMBA Bucharest scholarships up to EUR 15,000 for the next class starting in November 2010.**
